FEE SCHEDULE DISCLOSURE

COMMISSIONS

The commission to be charged in connection with the purchase of each commodity option is SEVENTYNINE DOLLARS (\$79.00) U.S. Commodity option clients will realize a profit only if the option is sold or exercised at a time when the premium received at the time of sale, or upon exercise, exceeds the premium paid plus commissions and fees. The commissions and fees payable to Blue Fish Commodities ("Blue Fish") hereunder have been arbitrarily determined. The commissions and fees for similar services vary considerably within the futures industry. The commissions and fees payable to Blue Fish may exceed commissions and fees charged by Blue Fish to others of its clients. The commissions and fees payable to Blue Fish substantially affect a client's ability to make a profit in his/her account.

OTHER FEES

In addition to the commission described above, a flat fee in the amount of TWENTY DOLLARS AND FOUR CENTS (\$20.04) round turn is charged to the client. These fees defray the costs Blue Fish incurs in clearing and processing each option transaction, plus postage, courier services and NFA fees. To the extent that it can be determined that actual costs incurred in any particular account do not equal the amount charged on any given transaction (i.e. opening and closing each option), this charge must be viewed as an additional commission.

FUTURES RIDER

Blue Fish round turn commission rate per futures contract is SEVENTY-NINE DOLLARS (\$79.00) U.S.

ACKNOWLEDGMENT

I hereby acknowledge that I have received the Risk Disclosure Statement and the Fee Schedule Disclosure. I have read these documents carefully and understand the concepts of trading options on the futures contracts and the disclosures contained in those documents.
